

Fitzpatrick Park Playground

CONSULTATION OUTCOMES

**YOUR SAY
RANDWICK**

Randwick City Council is upgrading the Fitzpatrick Park playground in Kensington with all new equipment and landscaping. We asked the community how the new playground should be designed.

We heard from lots of local Kensington families who regularly visit the park with younger children to play, meet and relax.

“Retain the park’s character as a quiet local community park”

“I love this playground as it’s great for my toddler and we always have a wonderful time here”

“Suitable low equipment for toddlers as well as some equipment for older children”

WHAT WE HEARD

- Play opportunities for younger children
- Swings, swings, and more swings
- Climbing options
- More seating

“I asked the kids, and they would love to see more swings...and a structure to climb over. We as parents would love more seating areas with shade”

“I’d like to see climbing equipment that is for both the big and little kids. Something that enables little ones to take a challenge safely”

FAVOURITE PLAY EQUIPMENT

✓ Multiplay equipment

✓ Swings with toddler seat

✓ Inclusive inground trampoline

*Note, images are not representative of the exact equipment that will be used in the draft concept plan.

WHAT'S NEXT?

Community feedback will be used to help develop concept plans for the playground upgrade. The proposed plans will go on public exhibition early 2022.
